CIA INTERNAL USE ONLY

25X1 4. (Internal Use Only - KKH) Received a call from Geri Rosen, in the office of Senator William Proxmire, (D., Wisc.), who requested a copy of our report on Chinese metal industries to be sent to a library. I checked with [] OCI, who informed me that the report she was referring to was classified and he would rather not give it out. Instead I was given a copy of each of three Research Aids: China: Role of Small Plants in Economic Development; An Index of Construction Activity in China; and the People's Republic of China: International Trade Handbook which I mailed out to Ms. Rosen.

25X1 5. [] - GLC) Ed Braswell, Chief Counsel, Senate Armed Services Committee, called to talk about the situation with respect to our problem with section 406 of the HUD appropriations bill (H.R. 15572). He said he wanted to keep Senator Stennis informed on this and asked if we had any "fallback" language. I told him I had been in touch with Jim Calloway, Senate Appropriations Committee staff, and that we were preparing some material for him (perhaps a letter from the Director to Chairman McClellan) and I would be happy to provide him with the same material. We talked about transfers of funds to the Agency under the Economy Act which would be affected by section 406 and Braswell asked if I would give him a representative list of such transfers into the Agency and if possible its transfers going out of the Agency. It was agreed we would get together tomorrow afternoon on this.

6. (Unclassified - GLC) Talked with Gerald D. Griffin, Assistant Administrator for Legislative Affairs, NASA, about our problems with section 406 of the HUD appropriations bill as reported out of the Senate committee. I told Griffin that we were fighting this as a matter of principle and had the support of Chairman McClellan, Senate Appropriations Committee, but I said I thought that people like NASA who would be affected by the prohibition against transfers of funds to the Agency should weigh in on this issue since they would be the real losers if such a provision went into the law. Griffin said NASA is preparing a reclamer paper for the committee since the bill has been recommitted. He said he had not thought about this aspect of the matter but he would take it up with Dr. James Fletcher, Administrator, NASA, to see if they couldn't include something in their paper. Griffin confirmed my suspicion that Senator Proxmire's question to their witnesses was directed at the question of whether there were appropriations for CIA in the HUD bill and they, of course, responded that there were not. They had no idea Proxmire would include such a sweeping prohibition in the bill when it was reported.
